### EXAMINATION

#### Initial Doctor's Check-up

If you are staying with us on a traditional or therapeutic spa package you will, upon arrival, be booked in for a check up with one of our spa doctors. The aim of this initial consultation is to check your health complaints, health history, that the treatments prescribed are safe and effective. If necessary the doctor may prescribe additional examinations and/or laboratory tests.

#### Doctor's Consultation

Throughout your stay our doctors are on hand to give you the necessary advice and guidance to ensure that you make the most from our spa facilities and treatments. They will also be able to answer questions that you may have and can give you important advice on our effective preventative therapies and improving your health in general. Some of our signature treatments, because of their unique effects, require a doctor's consultation prior to booking. Your health spa or hotel reception will be able to give you further information on this and how you can book an appointment to see a doctor

#### Doctor's Control

If you are staying with us for one week or longer on a traditional or therapeutic spa stay, you will receive a weekly control check up with one of our spa doctors. The purpose of this consultation is to ensure that your treatment plan is having the best results possible and that you are getting the best out

of our spa services. In some cases the treatment plan might be adjusted and additional treatments advised, depending on your progress.

#### Final Doctor's Check-up

At the end of your stay our spa doctors will conduct a final consultation to ensure that the treatments prescribed have gone according to plan. This is also an opportunity for the doctor to give you the necessary medical and lifestyle advice to help continue the improvement in your health once you leave. A report can be produced in German, English or Slovak.

### DIAGNOSTIC TESTS

**Laboratory tests:** basic examination of urine, glycaemia-blood sugar, urea, creatinine, AST, ALT, blood count + diff., FW – blood sedimentation, cholesterol in total, LDL cholesterol, HDL cholesterol, TGL - triacylglycerols, uric acid
